COITON MARKETS,

NEW YORK, July 30.—After a sharp early advance the price selling in new high ground for the movement the cotton market turned easier during the day's later trading, closing steady, net unchanged to 4 points (wer. The market opened steady at an advance of 264 points and sold 19@12 points net higher early, with December touching 12.53. 83 points above the low level of last week. This advance was due to strength in Liverpool, particularly in the prot market, which reported heavy sales, not with the conditions of the renewal of ir, hor, weather in Texas, buillish private condition reports, covering of shorts and in active general demand. As soon as out inde buying began to "daper off," suggesting that a buillish August bureau report in Monday had been discounted, so far as

A few of the week.

A few of the dealers have the unfortunate habit of believing that they should publish nothing unless it is of a sensational character, whereas, in point of fact, sensational deals are few and far between, and dealers are not known by the tremendous bargains they may effect once or twice in a lifetime, but rather by the small deals which they effect from day to day.

Several houses and stores changed hands yesterday, and all the properties brought good prices, making the agents satisfied with the day's work. Several agents reported that they had done nothing, but a few others had managed to make sales.

On Foreign Exchanges

LONDON, July 30.—Money was in better demand on the market to-day and discounts were quiet. The Stock Exchange developed a steadler tone, atthough business was restricted in view of the holidays. Spanish bonds improved, while the more confident Faris support helped foreigners and Kaffirs fractionally. Home rails hardened on further satisfactory dividends. Copper shares recovered moderately, but closed below the best. American securities were dull and featureless during the early session. At noon the market was quiet with prices from 1-8 below to 3-8 above yesterday's New York closing. Light support sustained values until the New York opening came strongly. United States Steel and Union Pacific touched new records and strengthened the rest of the list, and although a reaction from the best occurred, the market closed firm.

PARIS, July 70.—Prices on the

PARIS. July 30.—Prices on the Bourse to-day opened stronger upon the recovery in Spanish securities, but the latter sold off later, causing a weak close. Closing: Three per cent. rentes, 97 francs 67 1-2 centimes for the account. Exchange on London, 25 francs 19 1-2 centimes for checks.

BERLIN, July 30.—There was a good tone on the Bourse to-day, Exchange on London, 20 marks 43 pfennings for checks, Money, 3 1-2 per cent. Pri-vate discount rate, 2 1-4 per cent.

yesterday, and that was not made public, the real estate market was characterized by the same activity which has been its lot all this week, and the business done was very good, considering the hot weather and the time of the week.

West End

Trade Comistions.

NEW YORK, July 30.—Bradstreet's to-morrow will say:

'More buyers are in evidence in leading markets and fall jobbing trade shows signs of getting under headway, but the vacation season, the imminence of the inrift bill settlement, and the rapidity of recent price advances, breed conservatism in many wholesale lines pending clearer views of the final crossouturn.

'The prevailing uncertainty as to cotton prices, however, coupled with the high level of other commodity prices, introduces an element of unsettlement which finds reflection in checking forward operations of large magnitude in cottons and other lines though here again it is to be noted that wool is active. Industrial operations show enlargement, with iron and steel leading. There is a little more doing in the coal trade,

"There is a trifle less industrial unrest in evidence than a week ago. Car building concerns report large orders. There is more doing in the shot trade.

"Business failures in the United States for the week ending with July

trade.
"Business fallures in the United
States for the week ending with July
29 were 223, against 235 last week and
275 in the like week of 1968."
